Council News - Council User Fee Approved by Board

After a great deal of discussion and input from many of you, your Western Colorado Council Board of Directors has voted to implement a \$48 per youth annual Council User Fee (CUF). Based on your feedback, CUF will simplify your lives, and create financial predictability so we can hire people to better serve our units. We have never done this before (it's outside of our tradition), but at the urging of many unit leaders and committee chairs, we decided to implement this CUF with 2016 BSA membership. With this CUF we will be able to hire District Advisors (DA) who focus 90% of their time serving you. Never the less - we recognize that this change will impact our families, so we wanted to get this Q & A out to you ASAP. If you have any questions, please feel free to contact me directly on my cell - 512-657-0981 (I'll do my best to get back to you quickly, but please understand if it takes me a while....lots going on!)

Uploading Rank Advancements and Merit Badges to ScoutNet via csv.file

Internet Advancement

Many of our units are using outside software like ScoutBook, TroopMaster, PackMaster, Cub Scout Tracks, rather than ScoutNet (or more commonly known as Internet Advancement) to track the progress of Rank Advancements and Merit Badges for their youth members. This is totally fine and encouraged, but there is one final step you need to complete in order for the records to transfer to the local council's database, because it is not automatic! If you are using this software, you MUST upload a csv.file to ScoutNet as the final step. If you have questions on how to upload the csv.file or need your Unit Id Number to access ScoutNet (Internet Advancement), please contact [Sandy Elkins](#).
